Biratnagar-11, Morang

SUMMARY

A recent graduate with hands-on experience in Quality Assurance (QA), specializing in testing methodologies, test automation, and performance improvement. Skilled in creating test cases and identifying issues, with experience in Agile environments and cross-functional collaboration. Quick to adapt to new technologies and testing techniques. Eager to contribute to software quality and deliver outstanding results.

EDUCATION

AIMS COLLEGE	2018 - 2023
BSc in Computer Science and Information Technology	
Arniko Awasiya Secondary School	2016 - 2018
+2 Science	

EXPERIENCE

Featherwebs, Balkumari, Lalitpur

Quality Assurance Engineer

August, 2024 - Running

- Conducted functional and regression testing for Mobile Apps and Web Applications.
- Gained experience in test automation using Cypress for end-to-end testing, improving efficiency and coverage.
- Wrote detailed test cases, tracked issues with GitLab, and collaborated with developers to resolve defects.
- Performed manual testing and documented results for tracking and reporting.

Saffron Infosys, Biratnagar

Quality Assurance Intern

May, 2023 - Aug, 2023

- Gained foundational knowledge in software testing, including manual testing methodologies.
- Assisted in testing web applications for functionality, usability, and performance.
- Reported and documented bugs, collaborating with developers for resolution.
- Developed debugging and problem-solving skills through hands-on testing tasks.

PROJECTS

Swift Mobile App

- Conducted detailed test plans and test cases for various features in a Swift-based mobile application.
- Performed manual testing for app functionality and UI, identifying bugs, and suggesting improvements.
- Collaborated closely with developers to identify and resolve issues effectively.

Swift Web Application

- Developed test cases and performed end-to-end testing for a web-based application built on Laravel.
- Validated API endpoints using Postman and ensured frontend functionality matched the requirements.
- Conducted cross-browser testing to ensure consistent user experience across different platforms.

Sayapatri Travel & Tourism

- Identified and resolved UI/UX issues to enhance the booking flow.
- Checked ticket data accuracy, ensuring correct flight details and pricing information.
- Verified API integrations for real-time flight availability and booking confirmations.

SKILLS

- Skilled in designing clear and effective test cases and detailed test plans based on requirements to ensure thorough coverage and clarity.
- Familiar with API testing using Postman, including creating and executing test requests to validate backend responses accurately.
- Basic understanding of load and performance testing using JMeter.
- Fundamental experience in test automation using Cypress for end-to-end web application testing.
- Well-versed in SDLC models like Agile, Scrum, and Waterfall, with a solid grasp of QA's role throughout each phase.
- Acquainted with version control tools like Git to manage and track changes in test scripts and configurations.
- Adept at identifying bugs, documenting issues, and ensuring product quality through systematic testing.
- Proficient in bug reporting, verifying fixes, and using tools like Jira, TestRail, and Zephyr for effective bug tracking, test management, and task coordination.
- Strong ability to collaborate in team settings, communicate clearly, and adapt to Agile work environments.
